*Additional Patents Pending*

## Maximize Safety in Trendelenburg

The Pink Pad Trendelenburg Positioning System is an innovative, patented, clinically-preferred solution for increasing patient safety in Trendelenburg—preventing unwanted patient movement, while protecting nerves and skin against Hospital Acquired Pressure Injuries (HAPIs).

### Safely Prevents Patient Sliding

Overcome the positioning challenges of steep Trendelenburg; even with heavy, high-BMI patients

### Utmost Protection Against HAPIs

Patented, immersive, enveloping materials are breathable, soft, moisture-wicking, and insulative

### Proven Pressure Reduction.

In a recent study, subjects on the Pink Pad ranging from 16-54 BMI (35.5 BMI avg.) saw a 43% peak-pressure reduction

### Significant Time Savings

Setup time under one minute could save your OR up to \$1,900 per procedure (value of OR time: \$100/minute)

## A Material Difference

Clinical leaders in the world's top hospitals trust the Pink Pad's unique, HAPI-reducing material to maximize patient safety in steep Trendelenburg

New  
Product

# The Pink Pad® AIR ASSIST™

Safer, Easier Patient Transfer and Trendelenburg Positioning

Integrating The Pink Pad® into both top & bottom surfaces ensures skin protection, as well as patient stability in both Trendelenburg & reverse Trendelenburg

**TRENDELENBURG**  
& Reverse Trendelenburg

The Pink Pad Air-Assist  
(Trendelenburg)

- Lift-free transfer and repositioning for patients of all sizes
- Safely position high-BMI patients while protecting against Hospital-Acquired Pressure Injuries (HAPIs) and nerve damage

“The Pink Pad Air-Assist is the PERFECT solution for our patients and staff. Patients do not move on the Pink Pad until we want them to; at which point it’s very easy to reposition or transfer even our heaviest subjects. I’ll be using this product on all of my patients moving forward.”

— Matthew Davis, MD, Bariatric Surgery, Memphis, TN

# Pink Pad® Air-Assist Kits

Solutions for Trendelenburg Positioning

## #40660 Trendelenburg

- Pink Pad Air-Assist Trendelenburg
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

## #40667 Trendelenburg +

- Pink Pad Air-Assist Trendelenburg +
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

## #40669 EXT + Trendelenburg

- Pink Pad Air-Assist EXT + Trendelenburg
- One-Step™ Arm Protectors
- PinkProtect™ Head Positioner
- Skin-Friendly Body Straps
- Lift Sheet

# The Pink Pad® – One Step

A Safe, Streamlined, and Complete Trendelenburg Positioning System

- Establish a best practice standard-of-care<sup>1</sup> with a single-step, streamlined patient positioning system
- Set up time under one minute saves your hospital up to \$1,900 per procedure\*

\*Based on OR costs of \$100/minute<sup>2,3</sup>, and 20-minute average set up times for competitive systems

 2: OR Management News: What is a Minute Worth in the OR? June 2018  
 3: Critical Care Medicine: January 2019 - Volume 47 - Issue 1 - p 41

# The Pink Pad® – Safe Assist

The Safest, Most Clinically-Proven and Preferred Trendelenburg Positioning Solution – Now Easier to Use

- Easily transfer and position patients with integrated straps
- Safely prevent patient sliding, HAPI formation, and nerve damage in Trendelenburg positions
- Establish a clinical evidence-based best practice for reducing peak pressure and preventing unwanted patient movement

# The Pink Reverse-T Kit™

Reverse Trendelenburg Positioning System

Kit #40640 shown

#### U.S. Patents

8,464,720; 8,511,314; 9,161,876; 9,750,656; 9,782,287;  
9,931,262; 9,949,883; 10,045,902; 10,285,890;  
10,324,050; 2,859,398; 11,484,456

Canada Patents: 2,859,398

Additional Patents Pending

- **Safely Prevent Sliding**

An innovative seat contour made of high-density, supportive material ensures anatomically correct positioning, while skin-friendly PinkProtect™ safely prevents unwanted movement in reverse Trendelenburg.

- **Reduce Risk of HAPIs**

Unique, patented materials provide complete protection against HAPIs; minimizing non-reimbursable care costs by avoiding preventable injuries and CMS Never-Events.

- **Complete Coverage for Every Patient**

The Pink Reverse-T Kit™ requires less than one minute to set up. A single-use design minimizes cross-contamination risk and improves OR turnover times.

With patients weighing 450lbs or more, and BMIs in excess of 65, safe positioning can be a real challenge. Xodus Medical's Pink Reverse-T Kit not only prevented our patients from sliding, but did so safely.

— Alicia C, RN, BSN,  
Surgical Services Manager, Hartford, KY

# The Pink Hip Kit™

Postless Positioning System

HIP PROCEDURES

Exclusively Distributed by Smith+Nephew

## Patient Safety Advantages

- Significantly reduces risk of HAPI formation
- Postless approach requires shorter traction time, makes distraction easier, and improves C-arm visualization to allow for a more complete dynamic exam
- Significantly reduces post-operative pain and recovery times
- Requires no change to surgical technique
- Allows for a greater range of motion during surgery, making complex procedures easier
- Kits available for various tables

**"The nice thing with a postless system is that it truly prevents skin and nerve damage to the perineum. Hip Arthroscopy typically takes from 1-2 hours to perform, and a large amount of pressure is applied to the perineum area. That pressure can be associated with skin injury and nerve injury in as many as 30-35% of cases. If you can eliminate the post, you can actually reduce that complication rate to 0%."**

— Joshua D. Harris, MD, Associate Professor of Ortho Surgery, Houston, TX

LATERAL DECUBITUS

# The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

## Adjustable Lateral Head Positioner

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral head positioner

#LPK10005

## Multi-Angle Wedge

35°, 55°, and 90° inclination options optimize positioning for every patient and procedure

Breathable, Skin-friendly, Moisture-wicking Material

### Safety Maximized

Increase patient safety with DermaProx™ and PinkProtect™: breathable, moisture-wicking materials that gently immerse and envelop areas prone to pressure injury.

### Standard of Care Emphasized

No customization required. Regardless of weight or BMI; The Pink Lat Pack™ provides a safe, consistent standard of care for every patient, in every procedure, every time.

### Efficiency Optimized

In clinical trials, an average of 15–20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer, and easier.

Xodus Medical proudly supports the [AORN Tool Kit](#) for the Prevention of Perioperative Pressure Injury. Scan to view up-to-date patient safety recommendations or visit [xodusmedical.com/AORNtoolkit](http://xodusmedical.com/AORNtoolkit)

“Prior to working with Xodus Medical, a solution for lateral positioning that was both safe and efficient simply did not exist. The Pink Lat Pack™ combines skin-friendly materials with smart configurations that ensure a consistent standard of care. They save our OR a significant amount of time, especially during setup. Most importantly, the safety of our patients is better than ever.”

— Dr. Domenico Savatta, MD  
Chief of Minimally Invasive & Robotic Adult Urologic Surgery  
New Jersey

# The Pink Peg Board Kit™

Reduce HAPI Risk and Maximize Patient Safety

## LATERAL DECUBITUS

- A new standard for safe, effective and efficient lateral positioning
- PinkProtect™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security
- Help prevent Hospital Acquired Pressure Injuries (HAPIs)
- Ultra-supportive cores distribute pressure over the most challenging positioning surfaces

Unique high-density Peg Covers feature a seamless design that optimally balances HAPI reducing characteristics, as well as patient support and pressure distribution.

Reduce set up time, cost, and eliminate cross-contamination risks.

Setup time: less than one minute.

## REPEATABLE BEST PRACTICE

Eliminate the need for custom, off-label positioning solutions.

### Our Most Popular Configuration (PBK10001) Includes:

- PinkProtect™ Armboard Pads w/ Straps
- PinkProtect™ Peg Board Pad
- Peg Board Adjustable Lateral Head Positioner
- Universal High-Density Peg Covers (4)
- Skin-Friendly Body Strap and Lift Sheet

### Helpful Accessories Sold Separately:

- **#40945** 3" Intra-Leg Positioner (shown at right)
- Pink Dual Layer Pads (additional protection for legs, feet, etc)
  - » **#40771** (15" x 11" x 1")
  - » **#40772** (8" x 11" x 1")
- PinkProtect Pink Arcs (Axillary Rolls)
  - » **#40544** PinkProtect Standard Pink Arc (9" x 8" x 4")
  - » **#40524** PinkProtect Medium Pink Arc (16" x 6" x 4")
- **#40549** Universal High-Density Peg Covers (case QTY 16)
- **#40567** High-Density Double Peg Covers (case QTY 16)

**#40567:**  
Double Peg  
Covers
