

Floor Safety

Anti-Fatigue Mat Solutions

Increasing Safety & Comfort for OR staff

Muscle fatigue can create a dangerous and costly OR environment. Standing for long periods of time causes discomfort and fatigue that impedes both focus and energy levels of surgical staff. The Soft Step™ line of anti-fatigue mats help prolong surgeons work time, give extra support during long surgeries, and increase overall patient and OR staff safety. All of Xodus' anti-fatigue mats feature tapered channels that prevent fluid build up on the OR floor. Multiple size options make the Soft Step™ line of anti-fatigue mats a perfect solution for operating and decontamination rooms.

Dark Green Multi-Use

Prod #	Size	Multi-use*
80543	70" x 20"	Multi-use*
80544	35" x 20"	Multi-use*
80545	17" x 13"	Single-use

Light Green Single-Use

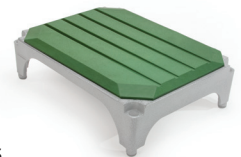

Prod #	Size	Single-use
80542	35" x 20"	Single-use

- Decreases muscle fatigue and increases patient and OR staff safety
- Single-use reduces cross contamination risk
- Available in multiple sizes to accommodate any operating room and decontamination room

* per hospital protocol as standalone or in conjunction with Xodus Medical Camel Mat line of absorbent mats

#80545

Soft Step™ Mini helps maintain high levels of performance even in smaller areas such as stepping stools.

#80543

Extended Comfort

The Soft Step™ XL is double the length of the regular Soft Step™ to help prevent trips and falls from "doubling up" floor mats.

#80537

Fitted Camel™ Mats

are specifically designed to be used with The Soft Step™. These mats feature all of the absorbent qualities of The Camel™ line while adding a barrier of protection to the Soft Step™ that help extend the life of your anti-fatigue mats.

Available for regular Soft Step™ and Soft Step XL™.
