

Orthopedic Positioning

The Pink Lat Pack™

A New Standard for Safe, Effective, and Efficient Lateral Positioning

Adjustable Lateral Head Positioner

Skin-friendly materials, adjustable height, and an ergonomic design make this the ideal lateral head positioner

Multi-Angle Wedge

35°, 55°, and 90° inclination options optimize positioning for every patient and procedure

#LPK10005

Safety Maximized

Increase patient safety with DermaProx™ and PinkProtect™:™ breathable, moisture-wicking materials that gently immerse and envelop areas prone to pressure injury

Standard of Care Emphasized

No customization required. Regardless of weight or BMI; The Pink Lat Pack™ provides a safe, consistent standard of care for every patient, in every procedure, every time

Efficiency Optimized

In clinical trials, an average of 15-20 minutes were saved during setup. When necessary, The Pink Lat Pack™ makes repositioning faster, safer, and easier.

“Prior to working with Xodus Medical, a solution for lateral positioning that was both safe and efficient simply did not exist. The Pink Lat Pack™ combines skin-friendly materials with smart configurations that ensure a consistent standard of care. They save our OR a significant amount of time, especially during setup. Most importantly, the safety of our patients is better than ever.”

Pink Lat Pack™ Popular Configurations

*Not all components are pictured

#LPK10022 – Savatta Pink Lat Pack™

- A. Adjustable Lateral Head Positioner (1)
- B. Skin-Friendly Body Straps (4)
- C. One-Step™ Arm Protectors with DermaProx™ (1p)
- D. Multi-Angle Body Wedge - Large (1)
- E. Lateral Leg Positioner (Savatta Style) (1)
- F. Pink Pad EXT™ (1)
- G. Pink Arc (Axillary Roll) (1)
- H. Lift Sheet (1)

*Not all components are pictured

#LPK10007 – Jackknife Pink Lat Pack™ (Modified)

- A. Adjustable Lateral Head Positioner (1)
- B. Pink Arc (Axillary Roll) (1)
- C. Multi-Angle Body Wedge - Small (2)
- D. Skin-Friendly Body Straps (4)
- E. Tapered Intra-Leg Positioner (1)
- F. One-Step™ Arm Protectors with DermaProx™ (1pr)
- G. Skin-Friendly Armboard Straps (1pr)
- H. Pink Pad EXT™ (1)
- I. Lift Sheet (1)

Revolutionary Positioning Security

When layered, PinkProtect components create a non-permanent bond up 11X more secure than traditional positioning-material combinations, and more than double that of other foam-based combinations.

The stability of PinkProtect components used in conjunction with one another eliminates the need for tape, increases positioning security, and saves valuable OR time.

For detailed testing methods, data, and to learn more, please contact Xodus Medical.

11x More Secure

#LPK10015 – Full-Flank Pink Lat Pack™

- A. Adjustable Lateral Head Positioner (1)
- B. Low Profile Lateral Wedge (2)
- C. Intra-Leg Positioner (1)
- D. Armboard Pads with PinkProtect™ (1pr)
- E. Skin-Friendly Armboard Straps (2)
- F. Pink Pad EXT™ (1)
- G. Lift Sheet (1)
- H. Pink Arc (Axillary Roll) (1)
- I. Skin-Friendly Body Straps (3)

“For years prior to the introduction of Pink Lat Packs, we at Yale New Haven Hospital relied on reusable devices for patient positioning in the lateral-decubitus position.

Interrupting procedures to reposition patients could negatively impact both patient safety and surgical efficiency. Pink Lat Packs are now an important component of our efforts to safely secure our patients, protect their skin and, ultimately, improve surgical outcomes.”

— Wilma Flores, BSN, RN, CNOR
Perioperative RN Specialty Coordinator, Transplant & Vascular Service
Yale New Haven Hospital

The **Pink** Peg Board Kit™

Reduce HAPI Risk and Maximize Patient Safety in the Lateral Decubitus Position

- A new standard for safe, effective and efficient lateral positioning
- PinkProtect™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security
- Help prevent Hospital-Acquired Pressure Injuries (HAPIs)
- Ultra-supportive cores distribute pressure over the most challenging positioning surfaces

Unique high-density Peg Covers feature a seamless design that optimally balances HAPI reducing characteristics, as well as patient support and pressure distribution

Protect areas at heightened risk for Hospital-Acquired Pressure Injuries (HAPIs)

Reduce set up time, cost, and eliminate cross-contamination risks

Setup time: less than one minute

REPEATABLE BEST PRACTICE

Eliminate the need for custom, off-label positioning solutions

Our Most Popular Configuration (PBK10001) Includes:

- PinkProtect™ Armboard Pads w/ Straps
- PinkProtect™ Peg Board Pad
- Peg Board Adjustable Lateral Head Positioner
- Universal High-Density Peg Covers (4)
- Skin-Friendly Body Strap and Lift Sheet
- » **#40549** Universal High-Density Peg Covers (case qty 16)
- » **#40567** High-Density Double Peg Covers (case qty 16)

#40567: Double Peg Covers

The Pink Stulberg Kit™

Safe, Effective, and Efficient Upgrades for Lateral Patient Positioning

#40778

- Help prevent Hospital-Acquired Pressure Injuries (HAPIs)
- DermaProx™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security
- Achieve a precise fit for your specific equipment
- Customizable kits optimize patient safety

“Xodus Medical’s Stulberg Kits perfectly complement our existing equipment, and they advance our efforts toward a pressure-injury free operating room environment.”

– Michele Giacobbi RN, BSN, CNOR, Pittsburgh, PA

PinkProtectKits™

Pressure Injury Prevention for Prolonged Patient Positioning

Multiple Head
Positioners
Options Available

#40521

#40519

- Featuring PinkProtect™ — an immersive, enveloping, breathable, and moisture-wicking material for the utmost protection against Hospital-Acquired Pressure Injuries (HAPIs)
- Multiple materials with varying densities to deliver optimal pressure distribution
- Proven, skin-friendly positioners designed to improve patient safety throughout prolonged surgical procedures
- Unique designs tailored to the specific requirements of OR patient positioning

The Pink Hip Kit™

Postless Positioning System

Pink Hip Kit:
Smith + Nephew
#72205289

xodusmedical.com/pinkhipkit

Eliminate Nerve Injury

Safely and effectively position patients without the need for a perineal post

Protection from Head to Toe

Maximize traction as well as protection against HAPIs with Hip Arthroscopy Boot Liners

Pink Hip Kit:
Hana
#72205682

Patient Safety Advantages

- Significantly reduces risk of HAPI formation
- Postless approach requires shorter traction time, makes distraction easier, and improves C-arm visualization to allow for a more complete dynamic exam
- Significantly reduces post-operative pain and recovery times
- Requires no change to surgical technique
- Allows for a greater range of motion during surgery, making complex procedures easier
- Kits available for various tables

// “The nice thing with a postless system is that it truly prevents skin and nerve damage to the perineum. Hip Arthroscopy typically takes from 1-2 hours to perform, and a large amount of pressure is applied to the perineum area. That pressure can be associated with skin injury and nerve injury in as many as 30-35% of cases. If you can eliminate the post, you can actually reduce that complication rate to 0%.

— Joshua D. Harris, MD, Associate Professor of Ortho Surgery, Houston, TX

Surgical BackPacks™

Safe Spinal Table Positioning

#SPK10113
(Includes Four (4) Skin-Friendly
Iliac/ Torso Covers)

#SPK10186

ProneSafe™

Maximize Patient Safety in
Prone Positioning #40599

Patient Safety Advantages

- Improve HAPI protection with DermaProx; a unique material that balances softness, breathability, immersion, envelopment, and moisture-wicking characteristics to create the ideal interface between patients and surgical equipment
- Enhance pressure distribution on high-risk patient areas and bony prominences
- Minimize non-reimbursed care costs and avoid preventable injuries and CMS Never-Events
- Achieve a precise fit for your specific equipment with customizable kits

“The Xodus products have greatly decreased skin redness and breakdown on the chin and bony prominences during long spinal cases. I have greater peace of mind using these products knowing that our patients are safe and better protected.”

— Mary Ann Pruskowski, RN, BSN, BSHA, CNOR, Neuro

Safer Single-Use Positioning

#40404

Slotted Head Positioner

- Provides anatomically correct positioning of the head and neck

#40409

Abduction Pillow

- Promotes proper positioning for optimal healing after surgery
- Concave sides and skin-friendly straps allow for a safe and secure fit

#40411

Ulnar Nerve Protector

- Protects ulnar nerve from pressure related complications

#40412

Heel Protector

- Protects plantar nerve

The Soft Step™ Line of Floor Mats

Increasing Safety and Comfort for Hospital Staff

- Tapered channels prevent problematic puddles in the OR
- Decrease muscle fatigue
- Increase safety and help prevent workplace injury
- Available in extra-long and mini sizes

“Prolonged standing during surgical procedures poses a high risk of causing musculoskeletal disorders, including back, leg, and foot pain, which can be chronic or acute in nature.”

— AORN Journal. June, 2011

Fitted Camel Mat

Extend the usable life of Soft Step mats by incorporating single-use, absorbent covers

- **Available in two sizes:**

#80536 - 39" x 24"
#80537 - 74" x 24"

Camel Mats™ | Absorbent Floor Protection

Solutions for Maintaining Clean, Dry Hospital Floors

Help Eliminate Slips, Trips, and Falls

- Keep hospital floors clean and dry
- Single-use design improves infection control and reduces cross-contamination
- Non-slip backing for secure placement

Advanced Fluid Retention Technology

Fluid-absorbing polymer traps liquid for easy and convenient cleanup and enhances absorption, preventing fluid drips

Camel Cord Cover™

Two peel strips reveal residue-free adhesive that secures the cover to the floor. This feature safely secures cords and decreases the risk of trips and falls.

Available in two sizes

Camel Mat – Standard Absorbent

DermaProx™

A Necessity for Every Pressure Injury Prevention Program

- Simple, safe solutions that help patient safety advocates meet AORN Guidelines & Recommendations
- Breathable, moisture-wicking, pressure-distributing material helps prevent HAPI occurrence
- Protects skin without the use of sticky adhesives; the removal of which may cause skin tears

Product #	Dimensions
(A) #40527	11" x 8" x 0.5"
(B) #40528	11" x 15" x 0.5"
(C) #40529	11" x 15" x 1"
(D) #40514	22" x 14" x 0.5"
