

The Soft Step[®]

Anti-Fatigue Mat

PATENT PENDING

Increasing comfort for OR staff

Muscle fatigue can create a dangerous and costly OR environment. Standing for long periods of time causes discomfort and fatigue that impedes both focus and energy levels of surgical staff. The Soft Step[®] Anti-Fatigue Mat helps prolong surgeon's work time, gives extra support during long surgeries, and increases patient safety.

Anti-Fatigue Mat

Reduces Muscle Fatigue

Extended Comfort
(helps maintain high level performance)

Product # 80542

- For use in the Operating Room
- Decreases muscle fatigue
- Infection control - one time use reduces contamination risk
- Increases safety - keeps clinical staff comfortable

Tapered Channels
The Soft Step[®] features tapered channels that prevent fluid from creating problematic puddles in the OR.
