

The Pink Hip Kits™

Postless Positioning - Go Postless!

Pink Hip Kits can include:

- (A) Pink Hip Pad™
- (B) Pink Pad® Lined Head Positioner
- (C) Skin-Friendly Body Strap
- (D) Pair of Armboards and Straps
- (E) Lift Sheet
- (F) DermaProx™ Lined Bootliners

Available for all popular hip distraction systems:

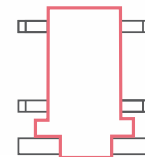

- **Prevents Pressure Related Injury to the Perineum**

By removing the perineal post, The Pink Hip Kit eliminates risk of nerve and tissue injury to the groin area and significantly reduces risk of HAPI formation
- **Streamlines Procedures**

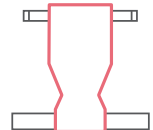

Our postless approach requires shorter traction time, makes distraction easier, and improves C-arm visualization to allow for a more complete dynamic exam without any change to surgical technique
- **New Standard of Care**

The Pink Hip Kit affords a greater range of motion during surgery that makes complex procedures easier and significantly reduces post-operative pain and recovery times
