

■ Safe & OSHA Compliant

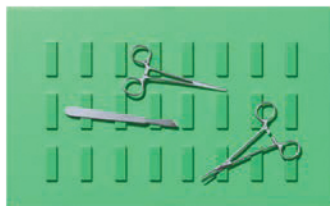

Saf-T Pass provide a hassle-free instrument transfer between staff and surgeon while also complying with OSHA's requirements for worksite exposure control plans. Research shows that the use of a hands-free technique (HFT) can reduce sharps injuries by up to 59%.

■ Designed to Increase Patient Safety

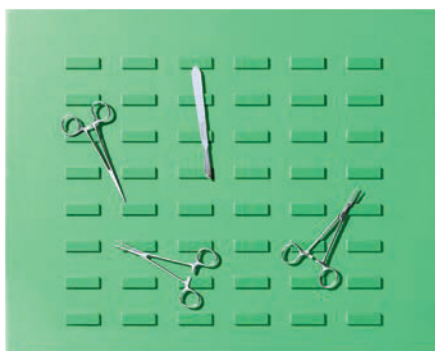

Flexible, single-use drapes conform to any shape or patient position and stays secure with non-slip backing.

■ Repeatable Universal Standard of Care

The Saf-T Pass line feature a variety of single-use sharps transfer solutions in multiple sizes to facilitate the hands-free passing of needles, syringes and scalpels.

#80710

#80720

Built-in safety tray prevents instruments from becoming magnetized

#80725

Raised magnets provide optimal holding power
