

The **Pink** Peg Board Kit™

- A new standard for safe, effective and efficient lateral positioning.
- DermaProx™ materials are immersive, enveloping, soft, breathable, and help maximize positioning security.
- Helps prevent Hospital Acquired Pressure Injuries (HAPIs).
- Ultra-supportive cores distribute pressure over the most challenging positioning surfaces.

Unique, layered positioners combine skin-friendly DermaProx™ with ultra supportive, high density cores; optimally balancing HAPI reducing characteristics including pressure distribution and breathability.

Protect areas at heightened risk for
Hospital Acquired Pressure Injuries
(HAPIs)

Reduce set up time, cost, and
eliminate cross-contamination
risks

Setup time: less than
one minute

Eliminate the need for
custom, off-label positioning
solutions
